Application for Fabricator Membership in the Field Erected Tank, Pipe or Pressure Vessel & Special Fabricated Sections

Thank you for your interest in joining the Fabricator Membership of STI/SPFA. The following will help you become acquainted with the requirements needed to be a member.

Membership Requirements: Fabricator Membership in the Field Erected Tank, Pipe or Pressure Vessel & Special Fabricated Products Sections is open to any person, sole proprietorship, partnership, corporation or similar business entity (a "Company") whose principal steel fabricating facility establishes to the satisfaction of the Board of Directors that it meets the following minimum criteria for membership:

- A. Primarily engaged in steel fabrication of products within (but not limited to) one or more of the following sections – field erected tanks manufacturing, pressure vessel manufacturing, steel pipe manufacturing, or special fabricated products manufacturing;
- B. Financially sound and provides proof of financial responsibility within such guidelines as the Board of Directors shall from time to time prescribe;
- C. Has sufficiently trained personnel, facilities, and technical competence to produce and service steel fabricated products;
- D. Will actively participate in, support and promote the technical, standards development, use guidelines and code activities of STI/SPFA;
- E. Is not engaged in activities which are contrary to or opposed to products, standards, use guidelines, and codes promoted by STI/SPFA;
- F. Agrees to be bound by the Terms and Conditions of the Trademark and License Agreement for the Section(s) in which it is enrolled;
- G. Pays at the time of submittal of this application, by check, credit card, or wire transfer all applicable first year's dues and fees, and any other outstanding indebtedness to STI/SPFA as outlined on page 2 of said application; and
- H. Agrees to pay all future STI/SPFA invoices within thirty (30) days of invoice date; and
- I. Agrees its membership in STI/SPFA is not transferable or assignable except as specifically provided by the STI/SPFA Bylaws.

Section Requirements:

Field Erected Tank Section Members must be currently and have been actively engaged in the manufacture of field erected tanks to AWWA, API and other nationally recognized standards, for not less than twelve (12) months preceding the date of this application.

Pipe Section Members must be currently and have been actively engaged in the manufacture of steel piping to industry standards such as the API, AWWA or the ASTM standards, for not less than twelve (12) months preceding the date of this application.

Pressure Vessel & Special Fabricated Products Section Members must be currently and have been actively engaged in the manufacture of ASME code pressure vessels; steel plate fabricated specialty products; or steel tanks not licensed by STI, for not less than twelve (12) months preceding the date of this application.

Companies must select one or more sections in which to enroll and must meet all of the requirements mentioned above. Membership applications are screened by the Member Services Committee as part of the membership review process and formally approved by the STI/SPFA Board of Directors.

Pipe Section Members may choose to join the Pipe Audit Certification Program. This program is administered through a third party quality assurance organization, and requires rigorous annual inspections and re-certification every three years. The audit evaluates a company's management, organization, QC program, procurement, and engineering, specifically as they relate to the needs of the water transmission industry. The STI/SPFA Pipe Quality Certification denotes outstanding achievement. This program is also available to non-members, but at a higher fee.
