API Adjunct Certification

Thank you for your interest in the **STI SP001 Adjunct Certification or Renewal Certification for API 653 Inspectors** course. Take it at any time, at your convenience, from your own computer. This is only for those with a valid API 653 certificate.

Course Content

- There are 12 modules in the course, each consisting of a PowerPoint review presentation and a four-item quiz.
- You must answer at least three of the quiz questions correctly before you can move on to the next module.
- Modules must be taken in order, no skipping back and forth.
- At the end of the course, you will take a 40-question final examination (**Do not back space or log out during exam**)
- Cost of the Online Certification Course is \$350.

Certification Requirements

- You must pass the 40-question exam with a score of at least 80% to qualify for Certification.
- Provide proof of passing an eye test for visual acuity within the past 12 months. The eye exam must be administered by an optometrist, medical doctor, and registered nurse or certified physician's assistant. A sample submission form is attached.

Prepare for the Course

Study the materials listed below. While the online course highlights important points, the 40-question final test includes additional information from these documents. (Co-workers may share study materials, but must complete the Online Certification Course individually.)
